

Inflatable Fun

for Commercial Pools, Open Water & Land

Making a splash since 1993!
www.aflextechnology.com

WE'RE SPECIALISTS IN INFLATABLE FUN!

Ready to attract more visitors? Increase your facility's revenue?
Provide more activities to entertain users at your facility?
Looking for something new, exciting and fun?

You will not believe the number of people that will line up to use your Aflex inflatables. Our colourful creations transform your location into a floating fun park that is irresistible to all ages!

For more than 20 years, we've specialised in the design, manufacture and international distribution of inflatables for:

- Commercial Pools and Aquatic Centres
- Camps
- Resorts and Hotels
- Beachfront, lake and other open water locations
- Councils, Governments and Shires
- ..and more!

Aflex inflatable obstacle courses and waterparks are an incredible opportunity to attract and engage more users with fun, healthy and challenging activity - there are countless benefits to your facility and your visitors!

As a family business with years of experience in flexible fabric technology, you can trust Aflex to provide an inflatable solution especially for you. 100% New Zealand owned and operated, all of our design and manufacturing takes place in our on-site facilities in Nelson, New Zealand. We distribute internationally and have hundreds of very satisfied clients in more than 18 countries.

Our extremely personalised and made-to-order service enables us to create something unique for you, to meet your investment objectives, business goals and users' needs. With our extensive experience, customisation capabilities and high quality manufacturing techniques - along with a one year warranty and satisfaction guarantee, **choosing Aflex inflatables for your location is simple!**

Product Range: **CONSTANT AIRFLOW INFLATABLES**

Transform your aquatic centre from a pool to a destination!

Visually impressive inflatables add excitement and a new dimension to your pool's experience. Our constant airflow inflatables are a popular choice for commercial pools, providing hours of fun for users and spectators alike - making for a great family day out! You can trust Aflex inflatables for your pool because we have been designing and manufacturing innovative, safe and FUN inflatables for more than 20 years.

What is a constant airflow inflatable?

Constant airflow obstacles require a fan to continuously pump air through the inflatable to keep it firm and bouncy for running along. The obstacle course is kept inflated via an air inlet tube, which at our standard length of six metres enables the blower to be secured well away from the poolside. A constant airflow obstacle course inflates in just a few minutes – an excellent choice for multi-purpose pools!

Why choose Aflex Constant Airflow Inflatables for your pool?

Safety is a Priority

We take safe water practice very seriously. All of our constant airflow inflatables comply with Australian Safety Standard AS3533.4.5 (int) and we have more than 20 years of experience conforming with standards for safety and aquatic devices for State and City governments in USA, Canada and many other countries. An Aflex Operations Manual is included with every order and contains comprehensive safety information and guidelines.

Durable & High Quality

Our constant airflow inflatables are constructed from heavy duty commercial grade PVC with the highest quality craftsmanship. All of our products are manufactured to exacting standards in our on-site factory in New Zealand by our experienced team, and tested for performance before they are shipped. Don't risk substandard manufacturing or copycat products.

Our inflatables are proven to draw a crowd.

Aflex inflatables are proven to draw a crowd with some of our clients reporting an 80% increase in attendance figures over school holiday periods.

Some pools charge extra for inflatable use and feedback has shown this to be very profitable with a great community response. Aflex clients have co-ordinated Sunday-Fundays, season passes, private and commercial hiring, birthday party packages and wristbands for daily inflatable use. Other pools prefer to enjoy the regular stream of customers that the inflatables attract.

However you decide to operate your inflatables, more interest and attraction to your aquatic centre is a given!

“

I appreciate all the help the staff have given me and for making it easy to choose Aflex as our preferred supplier of the past 12 years.

TROY HUGHES, LAKESIDE LEISURE CENTRE
NSW, AUSTRALIA

Giant Tubular Fun

No other inflatables on the market have the massive 3D action unique to our tubular models! Rising up from the water they are built for maximum fun and challenge in the pool environment.

Quick & Easy

Many of our courses are able to go from storage to play in less than 10 minutes and can happen while the pool is open and operating as normal. Simply roll out beside the pool, connect the blower, allow it to inflate, lift into the pool, secure in place and you're ready to go! No mucking around inflating multiple units that can take 1+ hours.

Extensive Range

With more than 40 constant airflow designs in our portfolio, we have inflatable solutions for just about all pool sizes and water depths. Because we manufacture to order, we can easily customise our designs to specifically suit your pool!

Popular Constant Airflow Obstacle Courses

These are some of our most popular designs, however you can explore our full range of constant airflow models on our website!

Know the size of your pool and the water depths? You're ready to get started! Contact our friendly team today for guidance selecting from our extensive range of obstacle courses to best suit your facility.

Case Study: Inflatable Success at Folsom Aquatic Center

What model/design/layout do you have?

We have purchased 2x Climb & Slides, 2x Huia Swings, a Multi-Challenge and a Mega Slide

Did you implement a fee to use the inflatable specifically or just increase an existing admission fee?

We purchased our inflatables back in 2009 and have seen a steady climb in overall annual revenue due to increases in season pass sales, daily attendance, and wristband sales.

How long do you anticipate waiting before your purchase price is recovered?

We had originally anticipated almost 2 seasons but managed to recover all expenses within the first summer.

Do you restrict the hours or day that the feature is available?

Inflatables are available every day during our summer season from 1 – 6pm.

What is your daily usage like?

Based upon a 90 day summer we average over 150 users each day. If you figure each person goes on at least 5 times that would be 750 trips per day x 90 days = 67,500 people on the inflatables per summer.

Have you increased any rental revenue associated with use of the inflatable?

Yes we do specialty rental parties in the evening and charge \$279 for 1.5 hours.

Customise your constant airflow inflatable!

We have a range of options to customise, personalise and/or brand your inflatable. All you have to do is ask!

Request a copy of our Sponsorship Kit

Get your inflatable into the pool sooner rather than later with the support of local organisations. Our Sponsorship Kit will show you how!

Need an alternative option to suit your pool?

Our unique curved side entry option enables you to make the most of your pool depth, increase flexibility of placement and include more challenging obstacles!

Stuck with your choice? Contact our friendly team to help you decide what fits best with your pool.

How did having this feature affect your surveillance coverage?

We actually believe having the inflatables in the water helps make the facility safer as we only have 10 people in a large area of water being guarded by 4 lifeguards. Before the inflatables we would have inner-tubes and free swim in the middle of the pool with at least 50-100 swimmers being guarded by the same 4 guards.

“

During a time when Cities were closing pools and trying to reduce spending we were able to increase revenue and participation at our facility. The only thing I would do differently is purchase earlier!

CHAD GUNTER
FOLSOM AQUATIC CENTER, CALIFORNIA

Crunching the Numbers

Summer	Wristband Sales	Revenue
2008 (no inflatables)	0	\$0
2009 (\$2 per wristband)	13,912	\$27,824
2010	15,230	\$30,195
2011	14,887	\$29,764
2012 (\$3 per wristband)	13,131	\$39,395
2013	13,216	\$39,648
2014	14,973	\$44,871
2015	14,440	\$43,363
TOTAL	99,789	\$255,060

Product Range: AQUA ADVENTURE SERIES

Transform your waterfront location into an irresistible aquatic fun park with our range of individual commercial-grade sealed modular inflatables that can stand alone or easily link together to create a giant and FUN obstacle course!

- ✓ Modular design - configure your obstacles however you choose!
- ✓ Perfect for the pool, lake or sea
- ✓ Change the sequence of your units to create new water challenges
- ✓ Custom-manufactured to your required specifications
- ✓ A major attraction!
- ✓ Powerful revenue generating assets
- ✓ Ideal for confidence building and active family fun
- ✓ Durable welded seams for long-term use - can be inflated and anchored for months at a time!

With our design and manufacturing expertise and wide knowledge of the inflatables industry, we can custom-create a water-based attraction perfectly suited to your unique needs. We'll ask you some simple questions so that we can create the best solution for you.
*How much space do you have? What are your water depths?
What is your intended age range?*

“

*It has been a great success, cannot keep kids off it.
It has given the guests a great place to go and have some fun.
Excellent product and even better service.*

MICK ILLINGWORTH, CHIEF ENGINEER,
PLANTATION ISLAND RESORT, FIJI

What makes our Aqua Adventure Series Special?

Unique Tubular Design

No other inflatables on the market have the massive 3D action unique to our tubular design – which we believe creates a much more fun, exciting and challenging waterpark!

Made to Order

Aflex inflatable waterparks are customised for YOU. Our custom design and manufacturing process helps us meet individual requirements and all relevant safety standards.

The Safe Choice

Our unique tubular designs have less water coverage, therefore have more visibility for lifeguarding and users are less likely to become trapped beneath.

Seamless Process

Our factory is just through the door from our office! We personally see your product through from start to finish, so you are guaranteed high quality products.

Exclusive Re-entry Pods

Our exclusive Re-entry Pods are the safest way for users to re-enter the course, and are easy to use for all ages.

Durable Linkage Technology

Our unique Velcro-free linkage technology enables you to connect inflatable modules quickly and easily, without risks of bacteria and rot commonly associated with Velcro.

See the smiles for yourself - everyone loves an Aflex Aqua Adventure Waterpark!

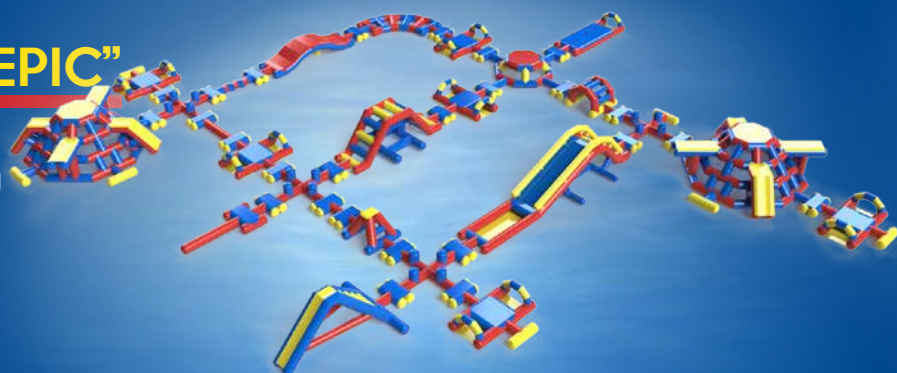

AQUA ADVENTURE "EPIC"

A waterpark of epic proportions! Boasting two Action Towers, a Splash Over and multiple Dual Re-Entry Pods, the Epic waterpark takes fun to a whole new level.

DIMENSIONS

36.5M (120') long

40.5M (133') wide

AQUA ADVENTURE "XL"

A challenging and fun loop for all ages, featuring the NEW Blob Drop, two Swings, our iconic Action Tower and many other fun obstacles!

DIMENSIONS
44.5M (146') long
27M (88') wide

KAITERI CHALLENGE

A fun linear challenge - Entry Pad, Tackle Bags, Bridge and Action Tower, featuring a dual Re-Entry Pod to re-enter the course when you make a splash!

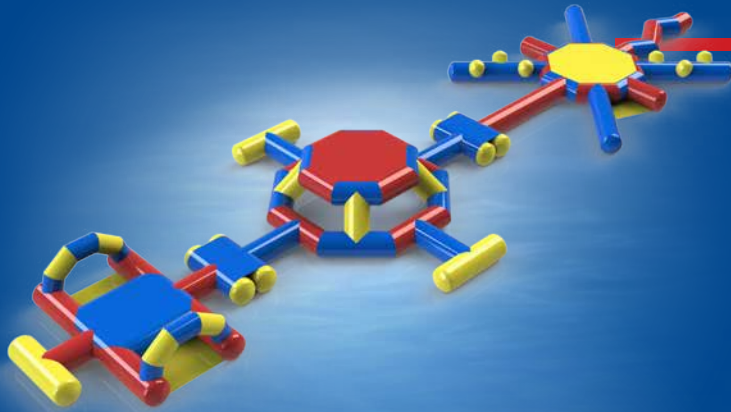

DIMENSIONS
34M (112') long
8M (26') wide

CHILLOUT ZONE

Jump, splash and relax on this floating inflatable island.

Customise Your Layout

Mix and Match

Select your favourite obstacles to configure your own waterpark! We will guide you through the process so that you get a waterpark that works perfectly for your location.

Budget

Whether you're prepared to spend a lot or a little, we can work with you to develop a unique attraction that works within your budget.

Location

We'll help you create a safe and exciting solution based on your water depths, location size and environmental conditions.

Specific Requirements

Custom colours, special branding, individual ideas... just ask us, the possibilities are endless!

Product Range: AQUA FUN SERIES

Transform your Commercial Pool or Aquatic Centre into an irresistible floating playground with the Aflex Aqua Fun Series!

Like our Aqua Adventure products, our Aqua Fun Series provides a range of individual commercial grade sealed inflatables – developed especially for commercial pools and aquatic centres, that can be easily linked together to create a FUN obstacle course!

Aflex inflatables are customised for **YOU**.

Our custom design and manufacturing process means we can ensure that our inflatables meet individual requests, requirements and all relevant safety standards.

"The inflatable course we constructed filled nearly half of an olympic-sized pool, yet took under an hour to erect and only another hour to pack away. With over 400 students testing themselves on the course, we were impressed with the robustness and versatility of your products."

S McLean, Nayland College, NZ

The Aqua Fun Series Modules

Pick and choose from our range of obstacles to create your own unique custom course.

Our experienced team will help you design an obstacle course that suits your water depths, budget and other specifications.

NEW!

WATERSLIDES

We've designed and manufactured slip 'n' slides and waterslides for years...but now we have the evidence to show how *awesome* our waterslides really are!

Introducing our Guinness World Records World's Longest Inflatable Slide!

Aflex manufactured the Live More Awesome World's Longest Inflatable Slide, as verified by Guinness World Records in July 2015! Inspired by this epic slide, we are now offering our impressive new and improved constant airflow waterslides in sections of 15 m (49 ft) that can be linked together using our unique airflow linkage technology to create your own custom-length waterslide. Suitable for an enormous range of outdoor environments and a thrilling adrenaline rush for children and adults alike!

INFLATABLE SIGNAGE WALL

Developed in collaboration with New Zealand Super Rugby team, the Waikato Chiefs! Our Inflatable Signage Wall was designed to act as a barrier between the sportsfield and crowd while providing branding opportunities for sponsors.

Unlike traditional advertising hoarding, the inflatable wall is soft, **SAFE** and very flexible - it can be placed around the edge of a rectangular field or curved around an oval, perfect for the sports field, concerts, events and endless other purposes.

Innovative modular system allowing the 15 m (49 ft) sections to be linked together to create custom length barriers!

NEW!

TURN YOUR INFLATABLE INTO A FLOATING BILLBOARD

SPONSORSHIP & BRANDING OPPORTUNITIES

Complete your new inflatable with your pool branding or sponsor's logo on the side...or even a completely custom collaboration!

Your Aflex inflatable can become a fun, floating billboard with your sponsor/s colours, logos and marketing text incorporated. What an exciting opportunity for a local business or organisation to get their message seen!

Many of our clients have shown that with just a little bit of effort and the support of like-minded organisations in your area you could have a brand new action packed inflatable in YOUR facility in no time!

It's simple and effective – contact us to request a copy of our sponsorship pack.

CUSTOM COLLABORATIONS

Aflex & Cartoon Network at Atlantis Resort, The Bahamas

The Cartoon Network tasked Aflex with bringing their Adventure Time characters to life for the summer in the Cartoon Network Lagoon at the Atlantis Resort. We designed, manufactured and installed this custom inflatable obstacle course on-site in The Bahamas.

SAFE WATER PRACTICE

We have more than 20 years experience conforming with standards for safety and aquatic devices for State and City governments in USA, Canada and across the world. Our constant airflow inflatables are fully compliant with the strict Australian Standard AS3533.4.5.

We work with our clients to ensure we provide the best-fitting products for their location. Because we manufacture all of our products in our own factory in Nelson, New Zealand, we can easily ensure your products are customised to your specific requirements and manufacture especially for your water depths and intended age group. We will also discuss with you our recommendations about lifeguards and their positioning to ensure optimum visibility of users.

“

*We actually believe having the inflatables in the water **makes the facility safer** as we only have 10 people in a large area of water being guarded by 4 lifeguards. Before the inflatables we would have inner-tubes and free swim in the middle of the pool with at least 50-100 swimmers being guarded by the same 4 guards.*

FOLSOM AQUATIC CENTER, CALIFORNIA

THE FRIENDLIEST CLIENT CARE

As a family business, we pride ourselves on our reputation of having the most personalised client care and advice.

With the friendliest and most helpful ongoing client care, our team are highly experienced in recommending products that are appropriate for your water depths, location and other specific requirements.

When you choose Aflex, you can expect:

- ✓ A one year warranty covering materials, manufacturing faults and mechanical defects
- ✓ Highest quality craftsmanship, manufactured to Aflex's high standards and compliant with your local safety standards
- ✓ Your products tested to ensure they will inflate without issue for your peace of mind
- ✓ Personalised service
- ✓ To be well-informed on lead, dispatch and delivery times
- ✓ Products that are designed, tested and delivered to last
- ✓ Ongoing support for set-up, operations and care
- ✓ Comprehensive support material

We also offer our **Aflex Satisfaction Guarantee** - our assurance to you that your Aflex product will work for you in your environment. If you are not totally satisfied with our product, we will work with you to achieve satisfaction, or give you a full refund on return of the inflatable.

*Aflex offer **the whole package** from purchasing advice and even made to measure, right through to great after-sales service. **They know their customers personally** and dealing with them is a real pleasure. Talk directly to the **friendly, approachable and very experienced staff at Aflex**. Not only will they make suggestions of products which will earn you revenue **they will go out of their way to ensure a solution especially for you.***

AFLEX ADD-ONS

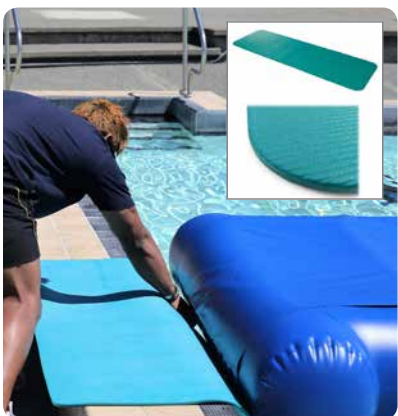

Trolleys

Available in Medium or Large sizes to store your inflatables and easily transport them to the water's edge. Operators can easily roll the inflatable on and off the trolley without heavy lifting.

Non-Slip Entry Mat

AIREX mats are made with a unique closed-cell structure, which makes them durable, washable and impervious to water. Permanent hygiene is guaranteed through the Sanitized® process.

Rules of Play Signage

Ideal for displaying when your inflatable is in use. This double sided A Board/ folding sign includes its own protective carry/ storage bag.

STEP-BY-STEP SETUP

We provide step by step setup instructions for each product range, many of which are now accompanied by brand new instructional videos. Many of our products are quick and easy to inflate and deflate. You'll find the setup and pack-down of your Aflex inflatables a breeze!
